Mr. Ken Chan
DeMenno/Kerdoon
2000 North Alameda Street
Compton, California 90222

Dear Ken:

This letter is in response to your clients' inquiries regarding the Trinity N512 extended life antifreeze formulation. This universal engine coolant features a patented organic acid based (Non 2-EH) compound that contains no phosphates or silicates. This formulated coolant is Dexcool compatible and can be used in American, Asian, and European made automobiles. It is compatible with all major brands of antifreeze and can be mixed with any color coolant. The additives CCI supplies as product IP514 when blended with D-K's recycled ethylene glycol (vacuum distillation method) as specified will meet or exceed the following required performance specifications:

DeMenno Kerdoon's redistilled ethylene glycol with the IP514 additive identified as N512 product (equivalent to Chrysler L405F) has been tested in fleet tests and can be used for the following automotive antifreeze specifications:

Chrysler MS7170, MS9760
FORD WSS - M97B44-A, -D
GM 1825M, GM 6277M
ASTM D6471, D6472
British Std BS 6580
JAPAN STD JIS K 2234
MERCEDES BENZ

Sincerely,

Michael Abel
Senior Vice President
